

Polar Meteorology and Glaciology

No. 12

Papers presented at the "Twentieth Symposium on Polar Meteorology and Glaciology" held at the National Institute of Polar Research, Tokyo, November 26–27, 1997

CONTENTS

Spectral albedo observation on the snow field at Barrow, Alaska <i>Teruo AOKI, Tadao AOKI, Masashi FUKABORI, Yoshihiro TACHIBANA, Yuji ZAIZEN, Fumihiko NISHIO and Tomohiko OISHI...</i>	1
Observations of liquid water, water vapor, and downward flux of infrared radiation in the Arctic region with a microwave radiometer and a pyrgeometer <i>Haruma ISHIDA, Tadahiro HAYASAKA, Masahiro KAJIKAWA, Katsuhiro KIKUCHI, Hiroshi UYEDA, Yoshio ASUMA and Yusuke INOUE...</i>	10
On the stratospheric ozone loss over Eureka station in the Canadian Arctic <i>Michio HIROTA, Koji MIYAGAWA, Tomohiro NAGAI, Toshifumi FUJIMOTO, Yukio MAKINO, Osamu UCHINO and Hans FAST...</i>	19
Lidar observation above Svalbard, Norway in the winter of 1996/97 —Characteristics of backscattering ratio and depolarization ratio of PSC particles— <i>Kouichi SHIRAISHI, Motowo FUJIWARA, Shigeru AYUKAWA, Yasunobu IWASAKA, Takashi SHIBATA, Hiroshi ADACHI, Tetsu SAKAI and Kouichi TAMURA...</i>	29
Size distribution of aerosols at Barrow in Alaska—A case study in spring <i>Yuji ZAIZEN, Kikuo OKADA, Miwako IKEGAMI, Teruo AOKI, Yusuke SAWA, Fumihiko NISHIO and Yoshihiro TACHIBANA...</i>	40
Ionic constituents in aerosol particles at Syowa Station, East Antarctica, during 1996 <i>Kazuo OSADA, Masahiko HAYASHI, Hirotaka UI and Yasunobu IWASAKA...</i>	49
North-Pacific sea ice and Kuroshio SST variability and its relation to the winter monsoon <i>Zhifang FANG and John M. WALLACE...</i>	58

A preliminary study on decadal oscillation and its oscillation source in the sea-ice-air system in the Northern Hemisphere	<i>Dengyi GAO and Bingyi WU...</i>	68
The role of floe size in ice dynamics	<i>Hajime ITO...</i>	79
Observation of sea ice conditions using visible and near-infrared channels in MOS-1/MESSR and ADEOS/AVNIR	<i>Kazuyuki SHIRASAKI, Hiroyuki ENOMOTO, Kazutaka TATEYAMA, Hideo WARASHINA and Akihiko WATANABE...</i>	86
Cloud extraction from polar satellite data using modified Mahalanobis classifier	<i>Mamoru KUBO, Hideo SAITO, Ken'ichiro MURAMOTO and Takashi YAMANOUCI...</i>	97
The Shirase flow-line model: An additional tool for interpreting the Dome-Fuji signal	<i>Frank PATTYN and Hugo DECLEIR...</i>	104
Preliminary results from radon observation at Syowa Station, Antarctica, during 1996	<i>Hiroataka UI, Shigeki TASAKA, Masahiko HAYASHI, Kazuo OSADA and Yasunobu IWASAKA...</i>	112
Comparison of temperature data measured by RS2-91 and RS2-80 rawinsondes at Syowa Station, Antarctica	<i>Masamichi NAKAMURA, Hitomi MIYAMOTO, Osamu NARITA and Ayumi YOKOTA...</i>	124
Experimental study on light scattering from an artificial ice cloud	<i>Yoshiaki SASAKI, Naoki NISHIYAMA and Yoshinori FURUKAWA...</i>	130
